

RELIABLE MELTBLOWN SOLUTIONS FOR VARIOUS INDUSTRIES

Reliable Meltblown solutions for spill control, industrial, medical, and filtration application

CREATING INNOVATION TOGETHER

MOGUL
Diversity in Nonwovens

◆ Technology and Advantages

Our Reicofil Meltblown line (1.6 m width) with electrostatic charging technology ensures high filtration efficiency and consistent product performance.

We offer:

Polymer flexibility – capability to produce with PP and PBT

Homogeneous fiber distribution – long filter life and uniform quality

Multi-layer composite structures – SM, SMS, SMM, MMM

◆ Product Range and Brands

Meltblown PP / PBT: High efficiency for filtration, mask, and technical textile applications

SM / SMS / MMM Composites: Strong durability and high filtration performance

Q-Wick: Absorbent and dispersive wipes for industrial and cleaning use

Duo-Tex: Dual-surface structure for superior durability in cleaning and maintenance

◆ Environmental Responsibility – Ultrasorb® Series

Our Ultrasorb® range is designed for the containment and cleanup of oil, chemical, and liquid spills, providing reliable protection for water and soil resources. Minimizing the environmental impact of industrial activities is not an option – it's a responsibility.

At Mogul, we take this responsibility seriously by developing eco-friendly, high-performance nonwoven materials that combine innovation, quality, and sustainability.

Thanks to Mogul's advanced meltblown technology:

Spills are absorbed rapidly

Spread is minimized

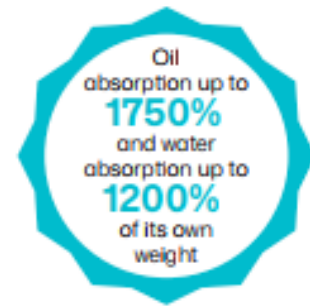

Cleanup processes are simplified

Environmentally friendly production – ISO 14001 certified

Reliable performance, sustainable impact.

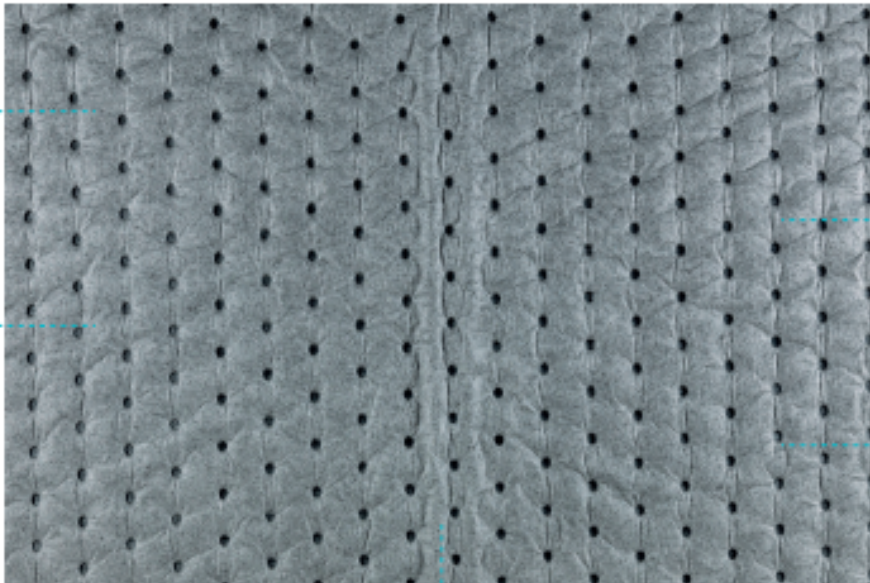

These Multifunctional Pads

Safeguard Your Facility And Employees
From Environmental Pollution and
Occupational Accidents
Caused By Leaks And Spills

Absorbs water
and oil.

High durability
thanks to
bonded
polypropylene.

Fine fibers in
the material
retain liquids,
prevent leakage
and gives a tidy
appearance to
fabric.

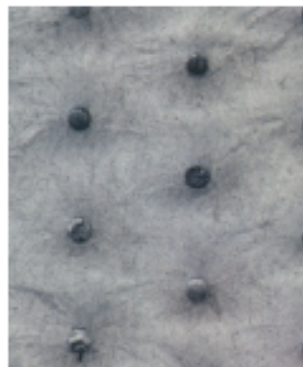

Gray color prevents
offset dirty
appearance

Maintains a
clean and dry
environment
thanks to its multi-
layered design

Product Features

Thanks to its natural
structure, Does not burn;
melts instead.

Dimpled surface enable
fast absorption.

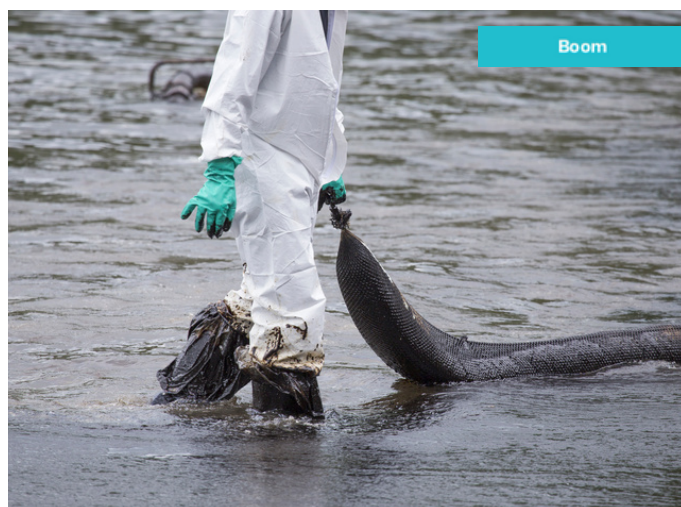

Perforated section
designed for effortless
tear-off and use

Resistant to wear and
does not curl up
underfoot

The White Boom Acts As A Separator
It Absorbs Oil When Placed In Water,
Without Absorbing Water

Highly Absorbent Sausages
Have An Extended Lifespan

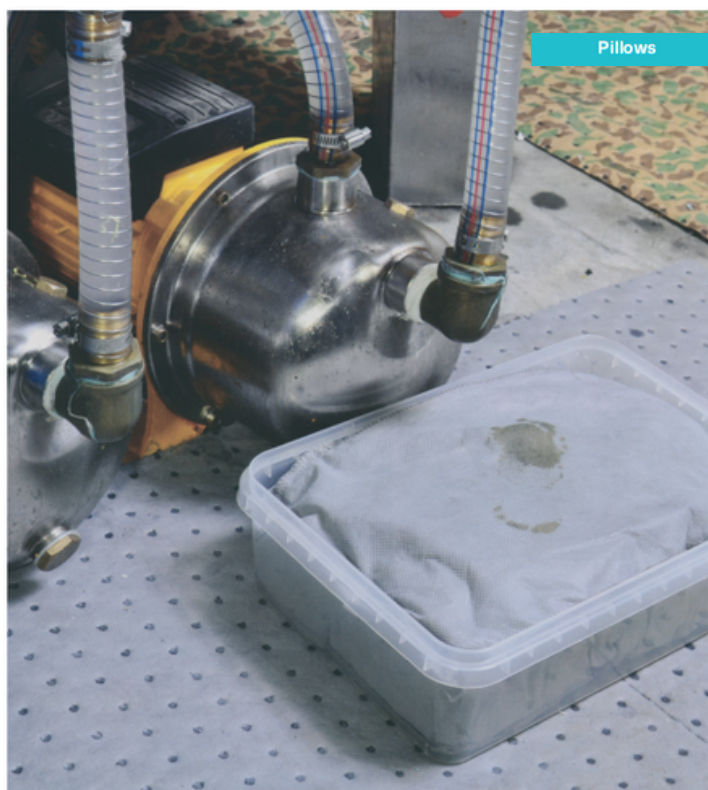

**Intended for
Use in Multiple Areas**

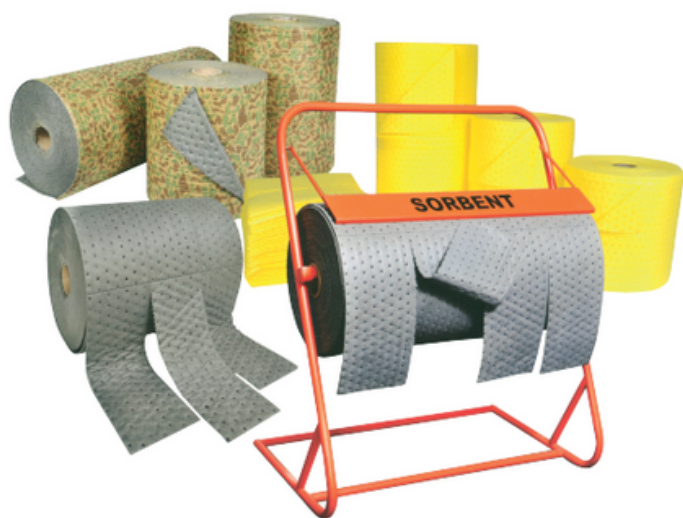

**Use It Especially to Eliminate Dirt
and Clutter Caused By Rags**

Pillows
Capture Leaks

Use Pillows With Pans
Keep The Environment Safe By Replacing The
Pillow Only When It Is Saturated

Absorbs hazardous chemicals and acids. Ideal for the healthcare industry.

Absorbs both water and oil, making it ideal for all machine parks with oil leaks.

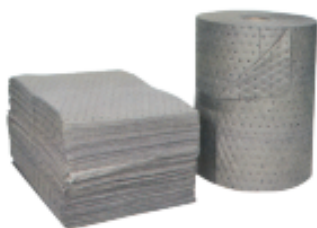

Absorbs hazardous chemicals and acids. Suitable for the chemical and pharmaceutical industries.

Only absorbs oils, not water. Can be used in both outdoor and indoor areas.

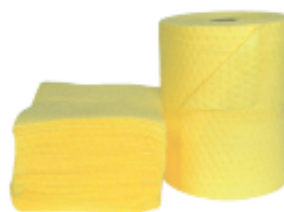

Our Products With Various Color Codes And Functions

UNIVERSAL
Oil and water absorbent

HAZ-MAT
Chemical, oil and water absorbent For the healthcare industry

HAZ-MAT
Chemical, oil and water absorbent For the chemical industry

OIL ONLY
Only oil absorbent

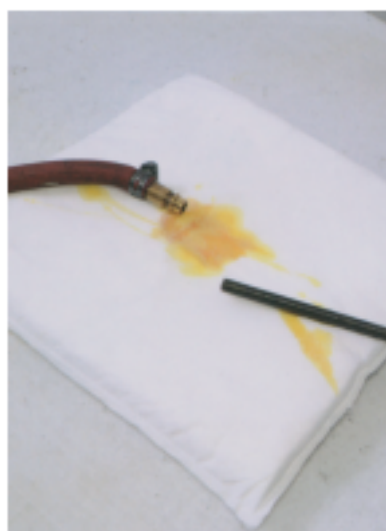

We offer the above colour codes with different product properties under 3 different brands, tailored to their areas of use and the types of chemicals they are designed for:

- Hisorb single layer no bonding
- Hisorb plus single layer, with ultrasonic bonding
- Ultrabond FF MMM 3 layers, with ultrasonic bonding
- Ultrabond SMS SMS 3 layers with ultrasonic bonding

Place Them Beneath The Machines And In Narrow Spaces

The filling material of the pillows ensures high absorbency. They have a long lifespan. They absorb oils, chemicals, water, and all liquids. They are resistant to tearing and rupture. When used with a pan underneath, liquids will not spill even in the event of impact; once the pillow is saturated, you can replace it and continue using the pan.

Product	Weight	Dimension	Package Size	Absorbency
Pillow	650 g per piece	45 cm x 45 cm	10 pcs / package	44 L
Pillow	160 g per piece	23 cm x 23 m	20 pcs / package	21 L

Oil Only

The white / durable polypropylene texture, designed for oil-only absorption, and highly absorbent filling prevent drips from becoming a problem.

Haz-Mat

The Pink Haz-Mat (for the healthcare industry), with its durable polypropylene surface and chemical-absorbing properties, traps hazardous spills.

Haz-Mat

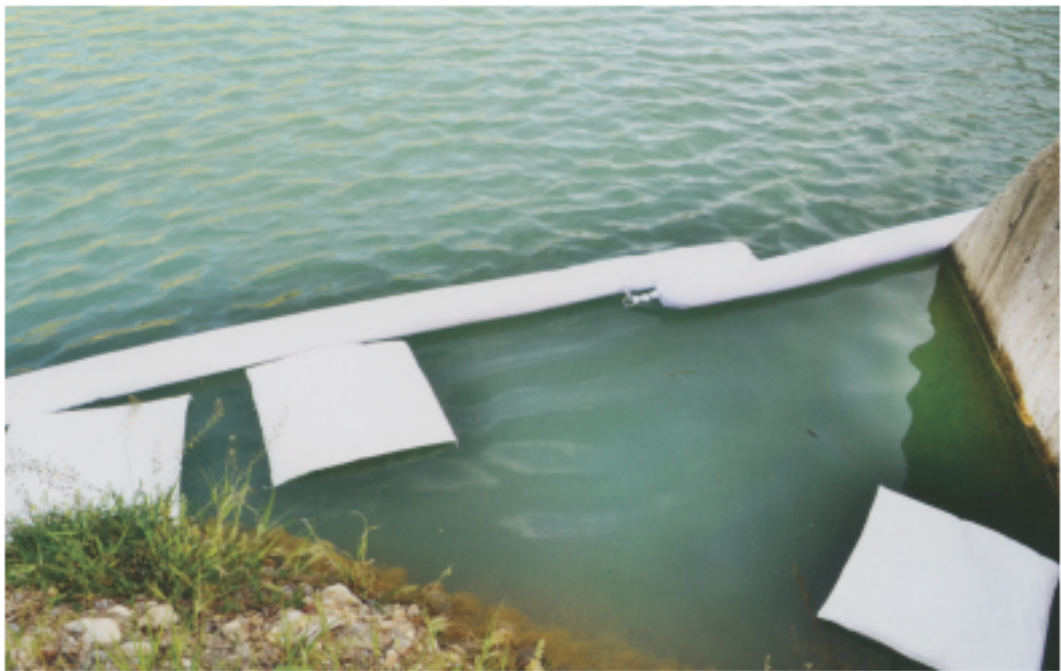

The Yellow Haz-Mat (for the chemical-pharmaceutical industry), with its durable polypropylene surface and filling, which absorbs acidic liquids, ensures a safe environment.

The White Boom Acts As A Separator

It Absorbs Oil When Placed In Water,
Without Absorbing Water

It Can Be Used
With The Oil-Only
Barrier Boom

Boom

Spaghetti Boom

Is Intended For Applications Where Both Its Absorbent And Barrier Features Are Essential

Spaghetti Boom Serves as a Buffer At Points With Excessive Leakage in Facilities

The Spaghetti Boom is preferred for its rapid absorption capacity, especially in the case of ongoing leaks or after a spill in facilities.

Product	Weight	Dimension	Package Size	Absorbency
Boom	5.240 g per piece	20 cm x 3 m	1 pc / package	35 L
Boom	3.200 g per piece	13 cm x 3 m	1 pc / package	21 L
Boom	1.180 g per piece	8 cm x 3 m	7 pcs / package	56 L
Mini Boom	800 g per piece	20 cm x 50 cm	10 pcs / package	54 L

Leaks of oil, chemicals, and other substances can pose environmental risks, leading to water and soil pollution. For instance, just 1 liter of oil can contaminate 1 million cubic meters of water. Such environmental pollution can result in significant fines for businesses, as per legal regulations. Our product provides an effective solution to mitigate environmental risks. It is produced in various sizes and absorbency capacities. The oil absorbent is used in

both universal and land-based applications. Those with oil-absorbent properties can float on water and absorb only oil, without absorbing water. The booms can be linked together using clips, enabling them to contain spills or pollution of any size in the sea. Thanks to its meltblown fiber filling, the booms offer high absorbency. Nylon ropes and durable construction provide strength and ensure a long lifespan for the booms.

Use In Any Size You Need

Folded Multipurpose Absorbents

Folded multipurpose absorbents are ideal for oil and chemical spills. The cloths are packed in perforated and folded, or rolled form, within cardboard boxes. As they take up little space, they allow for easy handling and storage. They are flexible, multi-purpose products with functions similar to pads, sausages, and rolls, making them suitable for the same applications. Can be used as a roll or torn along to create pads, as needed.

Product	Weight	Dimension	Package Size	Absorbency
Folded	200 g/m ²	ULTRABOND FF 48 cm x 15 m	1 box	20 L

Keeps Floors Safe

From Dirty And Dangerous Pump Drops

- Designed for use with barrel funnels, with an opening for the spout.
- Absorbs both oils and water.
- Provides an Occupational Safety precaution by preventing slippery floors.

Product	Weight	Dimension	Package Size	Absorbency
Barrel Cover	350 g/m ²	56 cm	25 pcs / package	28 L

Available in white (oil-absorbent only) and gray-yellow (universal).

**You Can Achieve
A Cleaner Look By
Using Absorbent
Mats On The
Barrel.**

Q-Wick Cleaning Cloth

It Can Be Used For Both Household
And Industrial Cleaning

Width: Min. 20 cm

Length: Max. 160 cm

Weight: 55-70 g/m²

Colors: Light blue (B3), Dark blue (B2), Green (G1),
Orange (O2), Yellow (O1), Pink (P1)

Q-Wick Cleaning Cloths are designed for cleaning all types of liquid surfaces, especially oils and petroleum products, with high absorption and efficient liquid distribution. Their patterned surface and bulky texture provide aesthetic appeal. Q-Wick Cleaning Cloths are high-performance absorbent cloths made from polypropylene microfiber, designed for use in various industrial cleaning and maintenance applications, including the engine industry, automotive industry, electronics, maintenance, painting, printing, car cleaning, and more.

- Its key properties are durability, absorbency, and lint-free performance.
- Its soft texture and bulky structure ensure comfortable cleaning.
- It offers 4-6-8 times the water absorbency and 8-10 times the oil absorbency relative to its weight.
- Its oleophilic and hydrophilic properties allow for easy cleaning of petroleum, machine grease, brake oil, cutting oil, paint, ink, and solvents.
- It is available in a range of colors, including white, green, blue, yellow, pink, and gray.
- It leaves no traces on steel or stainless steel surfaces.
- It ensures safe cleaning of delicate parts and machinery.
- It is available in various packaging sizes.
- It is cost-effective and ideal for stockpiling.

MOGUL

Diversity in Nonwovens

Duotex Abrasive

Industrial Cleaning Cloth

Duotex abrasive cleaning cloths can be used dry or moistened with lotion or disinfectant, depending on the application. This product removes heavy contamination such as oil, paint, tar, and ink without the need for water.

- It offers high durability for extended use.
- It is gentle on the skin, making it safe for hand and face cleaning.
- It effectively removes contaminants from surfaces thanks to its textured side.
- The smooth side is perfect for cleaning sensitive and delicate surfaces, as well as for general use.
- It is available in colors such as orange, blue, and gray.
- It is available in various packaging sizes.
- Tested for microbiological and pH safety.

Width: Min. 20 cm
Length: Spunbond+MB abrasive Max. 150 cm
Meltblown+MB abrasive 156 cm
Colors: Blue - Orange - Gray
Applications: Spunbond+MB abrasive
Meltblown+MB abrasive
Owick+MB abrasive
Spunlace+MB abrasive

Duotex Abrasive Cleaning Cloth
